# THE GS TROPHY: THE ULTIMATE TEST OF MAN, MACHINE AND ACCESSORIES.

It is a test of strength for man and machine. It involves mud, sand, rough terrain, steep ramps and magnificent nature: BMW Motorrad's GS Trophy. A very special adventure with extreme challenges. Teams from all over the world compete here for the tour of a lifetime.

Only those who can place full trust in their machine and all its components can pass this test. That is why all GS Trophy bikes are equipped exclusively with original BMW Motorrad accessories. These accessories are perfectly developed for every bike and for use under the toughest conditions. This is the only way they can withstand the extreme challenges of the GS Trophy and reliably protect man and machine.

For example, the lightweight yet ultra-stable engine protection bar, which, in combination with cylinder head bonnet protection and Enduro aluminium engine protection, reliably protects the engine from damage in the event of a crash or contact with rocky surfaces. The right ergonomics for the driver are also very important. The adjustable driver footrests in combination with the adjustable gear and footbrake levers, among other things make sure that this works for every driving situation and conveys safety.

Well-equipped for the next GS Trophy – a motorcycle adventure in which every participant has to prove himself or herself. And who knows where the tour of your life will take you.

## GET ON YOUR BIKE. OFF ON AN ADVENTURE.

### READY FOR ANY CHALLENGE.

No matter where you and your BMW are going: With the right BMW Motorrad accessories, you are always making the right choice. As only things that prove themselves under the toughest conditions meet our idea of quality and are allowed to be used in the GS Trophy – and ultimately make their way into this catalogue. Ready to leave familiar paths and discover new territory.

As well as the many original BMW Motorrad accessories used during the GS Trophy, you will also find numerous other original accessories for the areas of storage space, design and safety in this catalogue. For all current and many older BMW Motorrad models. For a short day trip, the race track or a big tour.

# DESIGN

## BMW MOTORRAD MACHINED PARTS

### AVAILABLE FOR

R nineT  
R nineT Pure  
R nineT Scrambler  
R nineT Racer

Each unique, lovingly crafted BMW Motorrad Machined Part is designed to make the BMW R nineT even more stunning. The designs are the result of close collaboration with Roland Sands, the Californian designer, trendsetter and customization expert. All BMW Motorrad Machined Parts also feature the "by Roland Sands Design" signature logo. The high-quality surfaces of these aluminium parts boast bold contrasts in Glossy Black and are produced in a series of complex processing steps, some of which are performed manually. All BMW Motorrad Machined Parts can be combined with the full range of Original BMW Motorcycle Equipment, allowing you to transform the BMW R nineT into your own ultra-personalized ride.

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

#### AVAILABLE FOR

R nineT  
R nineT Pure  
R nineT Scrambler  
R nineT Racer  
R nineT Urban G/S

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight.

16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

Only available in conjunction with "Navigation device preparation" (also available as an equipment option, option code 272)

"My motorcycle" page only available in conjunction with Pro on-board computer.

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

## NAVIGATION AND COMMUNICATIONS.

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams.

A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

**NAVIGATION AND  
COMMUNICATION**

**BMW MOTORRAD  
NAVIGATION SYSTEMS**

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams.

A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com)

**NAVIGATION AND COMMUNICATION**

**BMW MOTORRAD NAVIGATION SYSTEMS**

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

Only available in conjunction with "Navigation device preparation" (also available as an equipment option, option code 272)

"My motorcycle" page only available in conjunction with Pro on-board computer.

**NAVIGATION AND COMMUNICATIONS.**

**BMW MOTORRAD NAVIGATION SYSTEMS**

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "curvy roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight.

16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there? BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight.

16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).  
BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

## NAVIGATION AND COMMUNICATION

### BMW MOTORRAD NAVIGATION SYSTEMS

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams.

A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

## YOUR TYRES: THE PERFECT PAIR FOR MAINTAINING WHEEL GRIP DURING CORNERING.

They are your direct contact to the road. The decisive link against the centrifugal forces in the curve: your tyres. There is hardly anything that influences your motorcycle's handling more. There is a lot of discussion about the right tyres because anyone who has first-hand experience knows that two identical motorcycles drive very differently if they have different tyres.

Your BMW motorcycle dealership offers a selection of suitable tyres from well-known manufacturers for your bike. They are all chosen based on very extensive tyre tests. As preferences often vary depending on riding style and ability, many different types of tyres are tested and they are only given BMW Motorrad's official seal of approval after thorough testing. This is how we make sure that your tyres, in combination with your bike, perform optimally depending on the situation – when accelerating, cornering and braking.

So it makes sense to both have your BMW serviced at our trained BMW Motorrad dealership and to have it fitted with a fresh set of tyres when necessary. With this „One-Stop“ you not only save time, you can also make sure that you're driving using the perfect tyres. Your BMW Motorrad dealership knows exactly which tyre is right for your riding style and your bike. Guarantees many thousands of kilometres of riding fun.

## YOUR BIKE. YOUR TYRES. THE RIGHT COMBINATION DOES THE TRICK.

### ON THE ROAD WITH THE BEST TYRES.

Your BMW Motorrad dealership is not only a specialist for your BMW, but also for the right tyres. So they know exactly which Enduro, Touring or Sports tyres are the best for you and your riding style. The right combination of tread, tyre contour, rubber compound, vehicle geometry and other factors make the perfect compound for you and your BMW.

There are a number of helpful tools around the topic of tyres, which we present to you in this catalogue. For example, tyre puncture sets, mini foot pumps and multifunctional tools. This way you are always safe on gravel, sand and asphalt.

### BMW MOTORRAD NAVIGATION SYSTEMS

#### AVAILABLE FOR

C600 Sport  
C650 GT

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the "winding roads" route option, "avoid motorways" feature and the "round trip" function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

The BMW Motorrad Navigator V GPS system includes a 5" screen, 8 GB flash storage, Bluetooth® technology and optional smartphone link for real-time traffic updates.

BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

## STORAGE

### INNER BAGS FOR VARIABLE PANNIERS AND VARIABLE TOP BOX

**AVAILABLE FOR**  
R 1200 GS

The practical, waterproof inner bag with removable carry strap keeps its contents well protected. As with the variable pannier, its capacity is adjustable.

#### PART NUMBERS

**Inner bag for variable pannier, left**

Order number: 71 60 7 687 610\*

**Inner bag for variable pannier, right and variable top box**

Order number: 71 60 7 687 611\*

### VARIABLE PANNIERS

**AVAILABLE FOR**  
R 1200 GS

The variable panniers are fitted with a patented adjustment system, allowing the capacity to be reduced from 68 l (29 l left, 39 l right) to 50 l (20 l left, 30 l right). The pannier is 120 mm narrower when capacity is reduced, which is useful in city traffic.

#### PART NUMBERS

**Variable pannier, left**

Order number: 71 60 7 692 173\*

**Variable pannier, right**

### PANNIER RACKS FOR VARIABLE PANNIERS

**AVAILABLE FOR**  
R 1200 GS

The pannier rack (for mounting variable panniers) fits effortlessly into the overall design of the bike. Thanks to its high-quality Silver paint finish, it also won't look out of place when no panniers are mounted.

#### PART NUMBERS

**Pannier racks for variable panniers**

Order number: 46 54 7 695 986\*

(+) 2x raised head screw

Order number: 46 54 7 705 577\*

\* Original BMW Motorrad equipment is available from your BMW Motorrad dealer.

### VARIABLE TOP BOX

**AVAILABLE FOR**  
R 1200 GS

Like the panniers, the top box is fitted with a patented adjustment system, which increases capacity from 25 l to 35 l. The variable top box can also be mounted in the place of the pillion seat (for improved weight distribution, closer to the centre of gravity). In this case, the luggage grid must also be removed, and a mounting kit is required for the top box.

### ATTACHMENT FOR TOP BOX (TO REPLACE PILLION SEAT)

**AVAILABLE FOR**  
R 1200 GS

#### PART NUMBERS

### BMW MOTORRAD NAVIGATION SYSTEMS

#### AVAILABLE FOR

R 1200 R  
R 1200 RT  
R 1200 ST  
R 1200 GS  
R 1200 GS Adventure

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

Now you can charge your phone out on the road with BMW Motorrad's waterproof smartphone cradle. Charging takes place wirelessly or via a plug-in connection. The display and navigation functions are perfectly positioned in your field of vision and can be easily operated from the cradle.

For smartphones with 5" displays or smaller.

Max. dimensions: 13.8 cm x 7.3 cm x 1.1 cm.

BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

Note differences in national-market specifications.

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

Now you can charge your phone out on the road with BMW Motorrad's waterproof smartphone cradle. Charging takes place wirelessly or via a plug-in connection. The display and navigation functions are perfectly positioned in your field of vision and can be easily operated from the cradle.

For smartphones with 5" For smartphones with 5" displays or smaller. Max. dimensions: 13.8cm x 7.3cm x 1.1cm. BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

Note differences in national-market specifications.

### FOLDING HP HAND LEVERS

#### AVAILABLE FOR

S 1000 RR  
Only for model codes 0507, 0517, 0524, 0534  
HP4

High-quality, titanium-anodized, CNC-milled aluminium hand levers allow riders to adjust the distance between the handlebar grip and the hand lever itself. A folding mechanism reduces the danger of the lever bending or braking in the event of a crash.

To be fitted and/or enabled in a specialist workshop, and ideally at your BMW Motorrad dealership.

### FOLDING HP HAND LEVERS

#### AVAILABLE FOR

S 1000 RR  
S 1000 RR  
Only for model codes 0D10, 0D21

High-quality, titanium-anodized, CNC-milled aluminium hand levers allow riders to adjust the distance between the handlebar grip and the hand lever. A folding mechanism reduces the danger of the lever bending or braking in the event of a crash.

Successfully tested on the racetrack before market launch, the brake lever allows riders to adjust the distance between the handlebar grip and the hand lever itself.

A roller wheel on the left handlebar allows adjustment of brake lever play when the bike's centre of pressure shifts.

To be fitted and/or enabled in a specialist workshop, and ideally at your BMW Motorrad dealership.

### HP RIDER FOOT PEGS

#### AVAILABLE FOR

S 1000 R  
S 1000 RR

The high-quality CNC-milled HP rider foot pegs add both practicality and style. A variety of adjustment options for the foot pegs and brake/gear levers allow riders to create the ergonomic set-up that suits them best. Narrower foot pegs maximize the lean angle and are fixed – the preferred set-up in motorsport. Knurling ensures grip retention even in wet weather.

To be fitted and/or enabled in a specialist workshop, and ideally at your BMW Motorrad dealership.

## NAVIGATION

### BMW MOTORRAD NAVIGATION SYSTEMS

**AVAILABLE FOR**  
S 1000 R

Where am I? Where do I want to go, and what's the most scenic way to get there?

BMW Motorrad navigation devices show you where to go. Made specifically for motorcyclists, they're easy to fit and use – even with gloves on – and come with lifetime map updates.

The new BMW Motorrad Navigator VI is your ticket to the tour of your dreams. A whole new level of adventure awaits thanks to the “winding roads” route option, “avoid motorways” feature and the “round trip” function, which configures journeys based on time, distance or stopover. The circular polarization filter (CPOL) on the display minimizes reflection and improves contrast, ensuring the screen is easy to read, even in direct sunlight. 16 GB of flash storage, and the ability to stream music from your smartphone, are the ultimate luxury.

Thanks to Bluetooth® technology, the sophisticated BMW Motorrad Navigator Street (with easy-to-read 4.3" display) is compatible with the optional BMW Motorrad communication system and comes with a host of handy features.

BMW Motorrad navigation devices and the BMW Motorrad smartphone cradle can only be mounted using the BMW Motorrad navigation device bracket.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.com](http://bmw-motorrad.com)

Please note the specifications for different countries.
